solvent or waterborne paint cleaning

Ricardo, Colourist and painter

« Super efficient! 35 paint guns in record time with only one 500ml / 17fl oz aerosol! »

Mark, Body shop manager

« Finally a new product that combines economy and innovation: my paint gun cleaning budget is half of what it used to be! »

Gregory, Colourist and painter in a car manufacturer's pilot body shop

« JetClean is the washer that is the best adapted to my job: less work to clean the paint guns, almost no contact with the solvent, no solvent transfers of lifting oversized cans or jugs of solvent; with a 500ml / 17fl oz aerosol, it's plug and play! Very compact and very efficient! »
