# BBA212 Paint Scale

## Economic and fit for purpose

### Perfect readability
The big backlit LCD display is easy to read even under difficult light conditions.

### True industrial design
The BBA212 has been developed for the ruggedness of the automotive body shop environment.

### Adjustable display angle
The angle of the display can be adjusted to allow for ergonomic working

### Easy to connect
The BBA212 comes standard with a serial interface for direct connection to a PC.
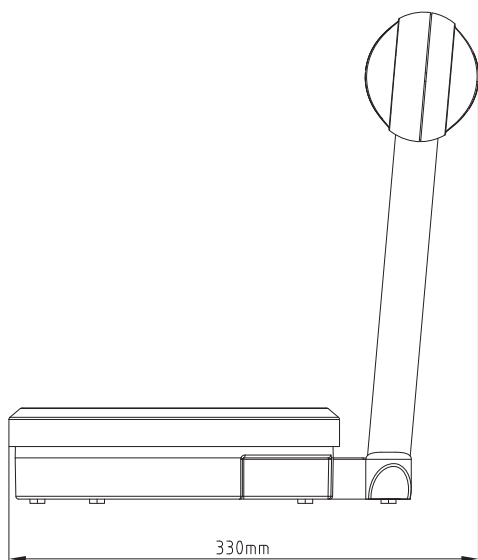

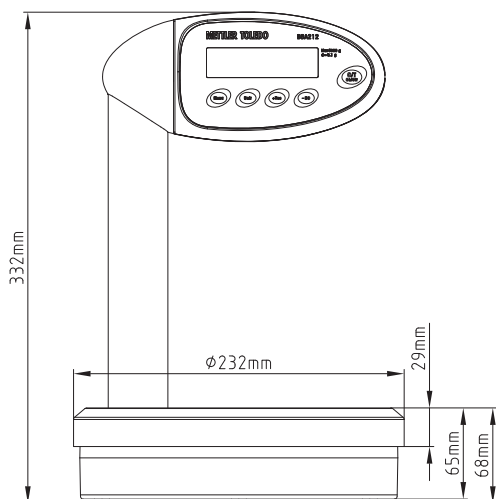

### BBA212
The BBA212 is the most economic way to get an accurate and reliable scale with the well known METTLER TOLEDO quality for your body shop. With a weighing range of 5kg and a readability of 0.1g you are fit for all tasks you will encounter. Thanks to the serial interface you can connect the BBA212 to a PC and use the scale directly with various mixing software packages from leading paint manufacturers.

## Operation and Maintenance

The BBA212 paint scale can be used as stand alone scale or in connection with a PC, where you run your paint mixing software. Internal software filter allow for accurate measurement even under difficult conditions. Maintenance of the scale is very easy: In case you pour paint over the weighing base, it can easily be cleaned thanks to the stainless steel platform.

### Dimensions of the BBA212 Scale (mm)

## Technical data

### BBA212 Paint Scale
