

SPEED UP THROUGHPUT WITH CHROMAVISION® PRO MINI

Using cutting-edge technology, the new ChromaVision® Pro Mini features a very compact and lightweight design. Its colour matches are not only highly accurate but, by measuring both colours and effects, it provides complete formulas in one go.

And, thanks to Wi-Fi connectivity, data can be sent directly to ChromaWeb™ software for ultimate convenience.

In short, this advanced yet easy to use device makes colour matching faster and more accurate.

CHROMAVISION® PRO MINI A NEW ERA FOR COLOUR MATCHING

Cromax® delivers increased productivity from the front of the bodyshop to the back with coatings systems engineered for easy, quick and accurate application. Localised business and marketing support solutions and pragmatic innovations simplify and expedite the refinish process. Cromax® helps bodyshops drive their business forward.

AN AXALTA COATING SYSTEMS BRAND

THE NEW MINI DEVICE THAT IMPROVES PRODUCTIVITY BIG TIME

Long life rechargeable batteries mean your ChromaVision® Pro Mini is always ready to use. It just slots into the docking station – no cables required!

THE NEW, SUPER-SMALL CHROMAVISION® PRO MINI TAKES COLOUR MATCHING TO A WHOLE NEW LEVEL

It's faster, easier to use and gives more accurate results than ever before. And it's helping more and more bodyshops enter a new era of colour matching.

In short, it dramatically improves workflow through the bodyshop.

01

FASTER RESULTS

The innovative ChromaVision® Pro Mini doesn't just deliver colour formulas fast, it also measures effects. So you get a complete formula in one go. And, using its Wi-Fi connection in combination with ChromaWeb™ software, you can instantly send data to your mixing room so the new colour can be mixed quicker than ever. Use it with a desktop computer, laptop, tablet – even a smartphone.

02

EASIER TO USE

The full colour, hi-res screen presents information clearly and LED indicators and sounds also give you immediate and direct feedback on the device status so you're always in complete control.

03

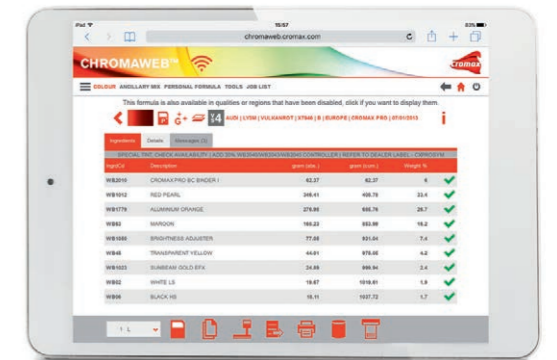

MORE ACCURATE THAN EVER

Using over 200,000 formulas as a starting point, ChromaVision® Pro Mini is proven to be more accurate than using a colour box (with roughly 5-10,000 chips). And, because all ChromaWeb™ formulas are in the cloud, they're constantly updated with the latest data, meaning you always have the most up to date information.

It may be small but it's incredibly powerful. The innovative ChromaVision® Pro Mini uses over 200,000 formulas to give more accurate results than ever – including finish effects.

ChromaVision® Pro Mini's Wi-Fi connection means you can transfer data to the ChromaWeb™ software instantly.
